

EDISON

Edison was rescued in the town of Stony Plain and ended up at Parkland pound. From there Edison was transferred to SNAP in hopes of finding a wonderful home. Unfortunately Edison cannot stay at the kennels in Petsmart for public viewing because he becomes very depressed and lethargic while he's there. While Edison is in foster care he is a quiet, laid back kitty and does well with the other foster cats. His foster parent believes that Edison would be good with children based on his gentle demeanor and would be a good fit for a variety of households including multi-cat, couple, singles, or families. If you are interested in meeting Edison please contact the volunteers of SNAP.

Gender: male/neutered

Date-of-birth: Estimated Feb 2010

Fostered: Yes

Good with cats: Yes

Good with dogs: Don't know

Good with kids: Yes
